**I use this form and information provided to match the right puppy to the right family. So any information you give is taken into serious consideration when I am finalizing puppy placements.**

**Also, I pick the puppy for the family. I do offer families the choice of male or female however sometimes I get a request but a puppy of the opposite sex appears a better fit. I will always talk with family first to make sure we both agree. But its rare that I know I have a good personality fit then I always try to find it in the preferred sex of the family. If you don't care then that is fine too.**

**You might think its not fair I pick the puppy? I feel that you are paying for a VIP service and therefore I want to give that to you. But having people come and just pick whoever comes to them without knowing the personality of the puppy is not a successful match EVER!. I promise after doing this for 14 years it works. It my goal to set every family up for success not failure. This process along with temperament testing that I do ensures your family is getting the closest personality for what you asked for.**

\* 14. Please give me any other information you think will help me get to know you and your family's needs with respect to placing a puppy most suited to your family/lifestyle:

These questions help me with understanding your lifestyle and activities and how you plan on raising your new companion. It is extremely important to me that all my puppies LIVE INDOORS. My dogs are extremely people oriented animals and they crave and thrive on human interaction.

Thanks so much and as always please feel free to text me with any further questions you have.
